2020 to Present

Science (Math)

Rastrya Mabi, 2018 to 2020
GPA 3.09 / 4.0

SUMMARY

Senior Full Stack Developer with 4+ years leading the design, architecture and delivery of production web applications, from public sector data portals to healthcare and fintech platforms. Equally comfortable owning frontend architecture in React and Next.js and building resilient backend services in NestJS, Node.js and FastAPI, with an emphasis on clean structure, performance and interfaces that hold up under real usage.

EXPERIENCE

Senior Full Stack Developer, Infomation Care Pvt. Ltd. Jan 2025 to Present
Pokhara, Nepal

- Own end to end architecture and delivery of the Koshi Data Portal, a public data portal built for Koshi Province government to visualize and publish provincial datasets.
- Designed and built the Syanko Katti Rolls Dashboard, an admin dashboard for order and business management for a food service brand.
- Architected Info Forms, a dynamic form building and data collection platform for internal and client use.

Full Stack Developer, Aarambha IT Jun 2024 to Jan 2025
Pokhara, Nepal

- Led development of a secure appointment and patient management system for a hospital, covering both frontend UX and backend data integrity.
- Built and shipped a modern, responsive cafe and catering site with Stripe payment integration.
- Delivered three additional client builds end to end: a static business site, a typography platform and a tourism promotion site.

Software Developer, Skybase Innovations Jul 2023 to May 2024
Pokhara, Nepal

- Built a fast, responsive single page food ordering application.
- Contributed core features to Sasto Ticket, a leading flight booking platform in Nepal.
